Rescue vehicles have always been the source of children's fascinations. They love to climb up on the hook and ladder, look inside the patrol car, or even see the flight for life fly overhead. Certainly these vehicles are designed to help people who are in trouble and to protect people. This course takes an interesting look at rescue vehicles while sharing the beautiful and comforting truth that God protects his people. We will learn that God sets our course, he protects his children, he hears our prayers, and he is preparing a wonderful home for us.
